Pleasant Hill SIR Branch 146 Volume 13 Issue 11

Published For Our Members And Friends

November 2001

The other day I was listening to the radio when the announcer indicated that the next tune would be a Golden Oldie. As the song played I realized that I either had never heard that song before or that somehow I had forgotten it. I listened closely and could not recognize the artist or the tune, if there was one. How could that be? I always enjoyed music you know - Pinetop Smith, Louie, Ella. I confess that my loyalty to Bing led me to predict that skinny Italian boy would never make it. Then later when that pelvic swinging singer appeared I was certain that society was about to implode. The Beatles also seemed like an anomaly to me and I was surprised that the Regional Center Gallery featured an entire show about them. It occurred to me that perhaps our tastes developed in our early years, provide us with a life long perspective, an ability to critically analyze current art forms. Take movies for instance. I like Mel Gibson and Kirk Douglas even if they are not as sophisticated as say Cary Grant or William Powell. Why has the suave and debonair disappeared? And the women, I'm sure that Julia Roberts is an excellent actress but young Grace Kelly or Ingrid Bergman, to name two, seemed, at least to this old mind, to have greater depth and reality to their performances. Television is another area that has changed over the years. Gone is the Jackie Gleason Show and a host of other programs that performed live. Now canned laughter rules prime time. Granted, there are a few good dramatic shows being offered the viewer but, save for Hallmark, few really meaningful dramas on today's telly, unless you're into violence and mayhem. I could go on about the new musicals and modern paintings and sculpture. Not that I dislike them, it's 'just that it has taken me a while to appreciate the current trends and yet I am still nostalgic about what used to be. Growing older really isn't so bad. We old guys are blessed with a huge back load of memories that not only help us evaluate and crow with what's new but to revel in what has past. Now where is that station with the Golden Oldies again?

We will meet on November 28th at 1:30 PM in the Safeway conference room in Alamo.

Garden tip of the month: Tulip Bulbs

Ideally a tulip bulb needs a chilling time of at least eight weeks. This gives them necessary amount of dormancy they need for spring growth. To pre-chill put them in the refrigerator for about six weeks (not the freezer). Do not use plastic bags, the bulbs need to breath. Plant as soon as you remove them.

Slow is For Dancin' Not Golf

The third quarter Slow Play List has been replaced on the bulletin board with the new one for the fourth quarter. The previous list contained the names of just one four-some. Does that mean there isn't a problem any more, or there never was one? It would be interesting to hear from those in the later groups.

Our marshals should be monitoring us and citing those whom they believe to be holding up the game. Don't forget, we're striving for a four and one half hour game for everyone.

If you think your group should have been cited and the marshal neglected to do so, you may advise a committee member and the names will be posted. You will recall that it takes three citations for the penalty phase to kick in. In this manner we can highlight those who are responsible for the slow play and encourage them to speed up.

Know Your SIR

Tony DeSalles

Tony DeSalles was born in Cressey, CA (near Merced) on a dairy farm. He is the youngest of seven consecutive brothers followed by two sisters. Tony graduated from Hilmar High School in 1945 where he held the office of Vice President Student Body and President when the current President was called to serve in the military. After graduating from high school, where he also drove a school bus, he continued on to Modesto Junior College. In 1948 he owned and operated the Green and Gold Restaurant in Hilmar. He married Carol in 1948 whom he met and courted while both were performing in the play Arsenic and Old Lace with a community players group in Turlock, CA. Carol taught grade school while Tony attended San Jose State College. They had three children: a son Jeff who received a BA degree from Sofia University in Tokyo, Japan and two daughters Gayle and Lee Ann, both with BA degrees from Sacramento State. Carol died in 1982 from cancer. In 1985 Tony married Mildred who has a daughter Susan with a Masters degree from Stanford University. While at San Jose State, Uncle Sam required his services during the Korean conflict between 1952-54. He was stationed at Fort Bliss, Texas in the 41st Field Artillery. Tony was assigned to the Allied Liaison Section GZ Division, where he served as a sergeant, Liaison Non Commissioned Officer between Allied Officers and non commission officers (except Russian satellite countries). He served as an interpreter (Spanish and Portuguese) and taught classes in English slang. After two years in the army he was employed by the Libby, McNeill and Libby Co. for three years as a retail sales rep. He then joined the Kelly-Clarke Co. Food Brokers in the S.F. Northern California office as a retail sales rep., supervisor, sales manager and eventually a co-owner after nine years. Tony retired after thirty years with this firm when he was 59 years old.

He was active as a baseball and softball umpire (civilian and military) and now enjoys retirement playing golf, bowling, walking and woodwork/crafts.

Tony and Mildred especially enjoy traveling, cruising, mountains, lakes and forests, battlefields and national parks. They derive a great deal of joy from their grandchildren and grand nephews. Equally important, Tony has never met a Branch 146 Sir he didn't like.

I used to wake up grumpy, now I let her sleep!

Health Matters, Physical and Mental

Oiling Your Joints

Can you "oil your joints" like you oil your car? Research from Athens University in Greece and two medical centers in Boston suggest that you can.

Olive oil, which has been shown to be helpful in protecting against cardiovascular disease, may also reduce the risk of rheumatoid arthritis, an autoimmune disease that causes painful crippling and inflammation of the joints. Researchers found the more olive oil consumed, the less occurrence of the disease.

Forgive To Live

Letting bygones be bygones is good for your heart. That's the conclusion of **Kathlene Taylor**, a psychologist with the University of Tennessee. She tracked subjects' blood pressure and heart rates as they discussed being betrayed by a parent, friend, spouse, or lover.

She found that those who had been able to bury the hatchet rather than holding a grudge had lower blood pressures and heart rates.

"Carrying around resentment can take a physical toll" says Taylor. "forgiveness is not only good for your mind - it also seems good for your body."

Table Pool

Bill Weinberg 2nd Monday at 11:30 am (at Masse's 2721 N. Main, Walnut Creek). Billanne@Infi.net

The table pool met on their regular monthly day of the 2nd Monday. The committee met before we opened the contest and among other things we talked to the mgmt. and were assured that there would be no waiting at any time for any Sirs to play. We have been told that there will be plenty of tables available. The matter of the trophies to be given for some of "the shots of the day" was considered and it was decided that "best shot with eyes closed", "most balls sunk without having to be told what is next", "most shots without damaging felt" and "most shots taken before reverting to vulgar language". All were winners. **Barney Meade** and **Ken Kratz** were among those given "rain checks" for the many trophies to which they are entitled. It must be said that for those who still want to be in good stead as a "Table Pool Member" they must attend next month's "Monday Meeting" at Masses on North Main at 11:30AM as there are only 54 openings left.
